## Super Smash Bros Brawl Custom Level Exchange

Posted by Lilredhead - 2008/03/16 14:18

Since we have a Smash Bros Brawl Friend Exchange thread going on in the forum (click here to view and post in that) I figured it wouldn't hurt to have a thread dedicated to exchanging custom levels!

Super Smash Bros Brawl features a simple yet fun level creator and I've seen some pretty cool levels designed by people. I've created a couple levels myself and while I'm not a master level editor, they're fun and I'd be willing to share what I've done.

Anyway, in order to share levels you need to exchange Wii Friend Codes (not Smash Bros codes) with each other. So just go ahead and post your Wii Friend Code in this thread and let the level sharing begin!
